

La Casa de Tamal LLC

SBDC Client Success Story

LA CASA DE TAMAL LLC

La Casa del Tamal features fresh, homemade tamales. Owner Ana Rangel opened the business in November 2023, hoping to bring her customers fun, happiness, and fresh Mexican food made with quality ingredients and authentic tastes. This woman-owned business started when she saw that homemade tamales were only offered during the holidays or by request in her city. This sparked her business idea and impulsed her to pursue her dream of opening a restaurant that serves tamales all year long.

HOW SBDC ASSISTED THIS BUSINESS

SBDC shared the necessary steps to prepare the business to launch in Arizona legally. To launch this Hispanic-owned business, the entrepreneur wanted to obtain supplementary funding to purchase additional equipment. Therefore, SBDC provided assistance in finding possible lending agencies that could finance a startup since there is a lack of entities that offer lending to pre-venture businesses. Moreover, SBDC consultants supported developing a business plan to include financial projections as required by the lending institution.
