

ARIZONA WESTERN COLLEGE
SYLLABUS

EGR 225 ENGINEERING ANALYSIS

Credit Hours: 3 Lec 3

PREREQUISITE: MAT 220

COREQUISITE: MAT 230

COURSE DESCRIPTION

Graphical and numerical descriptive statistics, probability, inferential statistics, discrete and continuous random variables, sampling error, hypothesis testing, and experiment design.

1. COURSE GOALS

- 1.1 Describe, display, and explore statistical data.
- 1.2 Understand statistical process control.
- 1.3 Make predictions regression analysis.
- 1.4 Understand probability, random variables and probability distributions.
- 1.5 Understand statistical estimation & testing.
- 1.6 Understand experimental design.
- 1.7 Develop logical and abstract thought processes.

2. OUTCOMES

Upon satisfactory completion of this course, students will be able to:

- 2.1 present and analyze data from various engineering fields using graphical and numerical descriptive statistics.
- 2.2 apply probability concepts to interpret and deduce probabilities and risks.
- 2.3 use and contrast fundamental probability distributions and density functions found in engineering analysis.
- 2.4 use and interpret concepts from central limit theorem to establish confidence intervals and levels, design experiments, and test hypothesis.
- 2.5 develop and demonstrate the behaviors of effective problem solving.
- 2.6 develop the ability to evaluate and analyze engineering measurement problems and to successfully solve these problems.

3. METHODS OF INSTRUCTION

- 3.1 Lecture
- 3.2 Discussions
- 3.3 Audiovisual materials
- 3.4 Printed materials
- 3.5 Demonstrations
- 3.6 Computer assisted instruction

4. LEARNING ACTIVITIES

- 4.1 Individual assignments
- 4.2 Projects
- 4.3 Quizzes

4.4 Exams

5. EVALUATION

- 5.1 Individual assignments
- 5.2 Projects
- 5.3 Quizzes
- 5.4 Exams

6. STUDENT RESPONSIBILITIES

- 6.1 Under AWC Policy, students are expected to attend every session of class in which they are enrolled.
- 6.2 If a student is unable to attend the course or must drop the course for any reason, it will be the responsibility of the student to withdraw from the course. Students who are not attending as of the 45th day of the course may be withdrawn by the instructor. If the student does not withdraw from the course and fails to complete the requirements of the course, the student will receive a failing grade.
- 6.3 Americans with Disabilities Act Accommodations: Arizona Western College provides academic accommodations to students with disabilities through AccessABILITY Resource Services (ARS). ARS provides reasonable and appropriate accommodations to students who have documented disabilities. It is the responsibility of the student to make the ARS Coordinator aware of the need for accommodations in the classroom prior to the beginning of the semester. Students should follow up with their instructors once the semester begins. To make an appointment call the ARS front desk at (928) 344-7674 or ARS Coordinator at (928) 344-7629, in the College Community Center (3C) building, next to Advising.
- 6.4 Academic Integrity: Any student participating in acts of academic dishonesty—including, but not limited to, copying the work of other students, using unauthorized “crib notes”, plagiarism, stealing tests, or forging an instructor’s signature—will be subject to the procedures and consequences outlined in AWC’s Student Code of Conduct.
- 6.5 Texts and Notebooks: Students are required to obtain the class materials for the course.
- 6.6 Arizona Western College students are expected to attend every class session in which they are enrolled. To comply with Federal Financial Aid regulations (34 CFR 668.21), Arizona Western College (AWC) has established an Attendance Verification process for “No Show” reporting during the first 10 days of each semester.
Students who have enrolled but have never attended class may be issued a “No Show” (NS) grade by the professor or instructor and receive a final grade of “NS” on their official academic record. An NS grade may result in a student losing their federal financial aid.
For online classes, *student attendance in an online class is defined as the following* (FSA Handbook, 2012, 5-90):
 - Submitting an academic assignment
 - Taking an exam, an interactive tutorial or computer-assisted instruction
 - Attending a study group that is assigned by the school
 - Participating in an online discussion about academic matters
 - Initiating contact with a faculty member to ask a question about the academic subject studied in the course
